

Alternate Transportation Service Address

The home address will be the transportation service address. Alternate service addresses will be considered for feasibility for the following situations:

- Child care
- Supervision
- Work (student employment)
- After School Activity

The District will accept a request for service from one address in the AM and a second address in the PM provided the addresses qualify under the eligibility criteria and is feasible. Transportation will be considered feasible when existing service is available or a stop can be established without increasing time or cost to the route.

The provision of transportation service to/from an alternate address will be granted for the requested school year only. Parents/guardians must re-apply for consideration of continuation each year.

Schools may issue a temporary bus pass to students who (with parent/guardian consent) wish to use an existing stop on an infrequent basis provided there is an existing stop within service assignment guidelines. Stops cannot be added for this purpose.
