

In-Lieu of Transportation

The district is willing to offer an Individual Transportation Contract in situations where there are not more than twenty (20) students in a common service area. The district would pay the parent/guardian .28 cents per mile for transporting your children to/from school.

Tendering of an Individual Transportation Contract to the parent/guardian whereby the district would pay the parent/guardian for transporting the pupil or pupils shall fulfill the district's obligation to furnish transportation for an eligible transportee. Baring extenuating circumstances, such a contract shall be binding on both parties for one school year.

District money may not be paid for transportation services to any person or firm who does not hold a legal contract with the district.
